

## Loirston School Positive Behaviour Management Procedure

At Loirston we use the 'Good to be Green' system which is reset every day. This links to earning Golden Time, 6 minutes per day (5 Dojo points per day for P7's), as well as earning House Points. Children who remain 'Green' all term will receive a certificate.

Using the 'Good to be Green' charts:

What shows on the chart:	Reason for it:	Consequence:
Green card	Pupil is demonstrating appropriate behaviours. All pupils start with this each day.	6 minutes of Golden Time (5 Dojo points for P7's) and 1 House Point earned for each day they stay green.
Verbal warning (Reminder) (Some pupils may need a reminder of the expectations before receiving a verbal warning. This is at the teacher's discretion taking into account the pupils age and stage etc.)	Pupil is demonstrating inappropriate behaviours at level 1 of the behaviour system.	6 minutes of Golden Time (5 Dojo points for P7's) and 1 House Point earned.
Yellow card	Continuation of level 1 behaviours	6 minutes of Golden Time (5 Dojo points for P7's), no House Point earned that day.
Red card	Further continuation of level 1 behaviours	No Golden Time (no Dojo points for P7's) and no House Point earned that day.
2 <sup>nd</sup> Red card	Further continuation of level 1 behaviours or level 2 behaviours	No Golden Time (no Dojo points for P7's) and no House Point earned that day. Discussion with SLT about behaviour choices. Appropriate consequence given by SLT from level 2 consequences.

If a pupil is consistently receiving red cards, then the behaviour system is not working for them. In this instance they will be removed from the Good to be Green system which includes Golden Time and House Points and be placed on an individualised behaviour system which meets their needs. They may re-join the Good to be Green system later if it is deemed appropriate for them.

Any removal from the 'Good to be Green' system should be discussed with SLT and pupil's parents/carers prior to implementing. The pupil and parents/carers should be clear on the reason for removal from the system and the alternative individualised behaviour system being implemented.
